News from the Sandwich Islands.

News from the Sandwich Lalabds.

GREGG AND THE LONDON TIMES.

We have news from the Santwin Liands, dated at Renolulu on 19th of April.

On the 12th of April the editor of the Polynesian, which is the efficial organ of the Haws'an government, bublished as article from the London Himes of Fob. 2, waith tended some very severe strictures upon the United Sales. It was not accompanied by any editorial remarks either of approval or disapproval. The article was simply headed:—'From the London Times of Feb. 2." he reproduction of this article, it seems, gave great of the core to the Hon. David L. Gregg, United Sales Commissioner, and he accordingly addressed a letter to the limiter of Foreign Relation, demanding an explanation. Is says:—

Mr. Wyllie, the Minister of Foreign Relations, immedi-tely demanded an explana ion from the edisor, who in

his reply says:—

It was non of my clipping, nor have I yet seen the particular number of the Times from which it was taken. The saip was not even printed in the type or on the paper used by the Tymes, or any other Erg ish peper, a streamstance which argues that its article had been c maidared worthy of republication abroad before it was republished here. But 15 be azolicit, it came into my possession through the instrumentality of the Abroad Marciana salizate, as with a request that I would publish it. Fach of these gentieman I betteve to be as honestly point of the country, and ready to serve her, though not olicially bound to do so, as any American on the Sand wich Islands. I mention that to prove in the first place that no intention to its intenting the article; and in the second place, as a curl us fact in psychology, showing in what remove lights different minds, although their general tendency may be similar, can view the same subject.

As a man of the wor'd, of well known liberality represent og a great resuble, where liberty of speech and of the pen is a privilege of awar citizen. I res persued that in the exhaustion sendered by Mr Hopkins you will inde anough it tailty you has the article from the London Times of the 2d o chronical man and the factor of the 2d o chronical man and the article from the London Times of the 2d o chronical man and the factor of the 2d o chronical man and the sending. "From the London Times feel without any word of editorial common thereon, was not feel to expending without any word of editorial common thereon, was not expended with any institution of giving offence to government of the United States; and that the republication of that article cannot be understood as a rocof of diare cot to that government, either by the King and his Ministers by the director of his Misisty's press.

Thus the affair ended. It is a matter of much

or by the director of his Majesty's press.
Thus the affair ended. It is a master of much cong-atulation that this last "speck of war" has disappeared.
A war between the United States and the Sandwich is
lands would be a very deplorable affair, and we are very
glad that the authorities promptly made the amende
honorable to our erascible Minister. Seriously, we look
upon the whole affair as extremely silly. The article
from the London Times, the reproduction of which in the
columns of the Polymerian gave suon offence to Mr.
Greeg had been published in the principal papers in the
United States.

News From the South Pacific.

The steamer New Granada, from Callao, arrived at Panama on the 21st of May. Her dates are—Valparateo, April 30; Callao, May 12.

PERU.

Peru continues in an unceriain political state, and its tranquility is every day in greater dauger of being disturbed. The reaction which suppressed the military movement of Islai, bas delayed for the present the revolutionary movements that were ready to break out, against the actual order of things, in dirers of the Northern and Stuthern parts of the republic.

BOLIVIA.

Tranquility was re-established in Bollvia, and there appears to be full confidence that General Cordoba's administration will be able to pressaye it.

CHILE.

The following are the principal items of news from Chile:—

The following are the principal items of news from Chile:—

Few events have taken place during the last two weeks of April sufficiently remarkable to interest our foreign readers. But still it is satisfactory that we have no misfortune to relate, nor any accident which may affect the republic's tranquil and steady progress.

The damages suffered by our agriculture during the storm of March, have been, as we had foreseen, greatly exaggerated. The advices intely received from our most productive provinces prove this fact beyond doubt, and the welcome news has seen, to a certain eggree, could need by government, the Araucano, official crean, having published a demonstrative article on the subject.

The works in the copper mines are every day more important. The scarcity of provisions has been no obstacle to the establishment of new works, and the amusaing of considerable fortunes in a short time. The free commerce treaty with the Argentine republic once exchanged—and we do not know why it is still in suspense—the difficulties extered by this important branch of industry will be much diminished. On this subject our correspondent lately wrote us as follows:—

The most interesting fact at present is the speculation

pendent lately wrote us as follows:—

The most interesting fact at present is the speculation in copper mines. You cannot imagine how the works increase, and what an importance they will in time account. Besides the rich minerals on the coast, particularly

Besides the 1tch minerals on the coast, particularly towards the North, numerous works are established and extracting abundant orce in the interior, and in all the chain of mountains as far as the Cordillera. One of the events which have most homored the republic during this fortnight has been the inauguration of another Protestant chapel in this port.

The election of President for the republic is drawing near, and yet not the slightest sympton denoting agitation is observed.

## FINANCIAL AND COMMERCIAL.

MONEY MARKET.

FRIDAY, June 13-6 P. M. No charge took place in the market to-day. At the first call this morning a better feeling prevailed, and a slight rise was realised on one or two leading stocks; but the advance was lost after the board, and the market perity and moral uncertainty continues. If the bulls have the two million shipment to rely upon, the bears refer to Lord Clarendon's speech in the British Parliament, in which he skain alludes to Mr. Crampton's case. indicates that to have recalled him would have dis horored the British government. Taking all these circumstances into account, though there can be no question of the general prosperity of the year, or of the ultimate settlement of the British difficulty, it would not be wholly unreasonable if lower prices were reached before the steamer from England brings us news of Mr. Crampcon's arrival there.

At the second board the market was a little flat and very dull. Erie fell off 36 per cent; Calena and Chicago, 36; Reading, 36; Michigan Southern Railroad, 36. The ffect of the Arabia's news was not seen this afternoon. It came to hand after business hours. The last returns of the Bank of England show an increase of £750,944 in bullion. The most important item of fluancial news in the reduction in the rate of interest by the bank, from

The Arabia arrived to day, with news to the 31st May. Her advices are favorable for money, which was very abundant; but unfavorable for cotton, which had declined a sixteenth to an eighth, with light demand at that, and also for corn, which had decrined 21. per bushel, and wheat Is. a barrel. Consols were quoted at 94%, that being the price for the account. The trade returns show an increase of the export trade; and Barings report new activity in the sugar and coffee markets.

The following table will show the fluctuations in con

sels from the 23d to the 31st of May:-

30.94% 94% 94% 94% 94% 94% 94% 94% 38% The Liverpool Times, of the 31st, says:—
The reduction by the bank in the rale of discount aftested the price of securities to only a small extent. In fact, it is not yet appreciated at its true importance. Previously to its being known consols were much depressed by the unsatisfactory condition of our relations with the United Slates, the debate in the Senate being regarded as pesuitarly howille to this country. They opened for the 4th of Jane at 96 a 96%, but this uneasy feeling caused them to decline rapidly to 94% sellers.

The steamship George Law, at this port from Aspin wall, brirgs nearly two millions of dollars in gold. The John L Stephens, at Panama, from San Francisco, brought down \$2,285 198 29, of waich \$342,641 67 was on a glich account. The seamer from this por for Europe -morrow. Saturday, will not take out much specie. The operations of the sub-treasury to-day were as

 The warrants entered at the Pressury Department,
 Washington, on the 10 h instant, were as follows:-

The Breadway Bank has deplaced a divideed of six and a half per cent, payab e on the 1st of July. Five per cent of this is the regular remi-armoal dividend, and the re-mainder is in compensation for the change of time of payment henceforth from the 15th of May to the 1st of July. The United States Insurance Company of Boston has declared a semi annual dividend of four per cent, payable on demand; the Atlanta Cotton Mills, at Law rence, Mess., a semi-ennual dividend of four per cent; the Hartford Fire Insurance Company a semi-annual ofvidend of five dollars per share, besides adding a hantsome sum to the surplus fund.

### Stock Exchange.

### Stock | SECOND | SOARD. | SECOND | S
